RECREATION

BY LEMMIE JONES LLC

Recreation by Lemmie Jones, LLC Company Overview:

Recreation by Lemmie Jones, LLC is the one source for all your Residential Water Play needs. We are based in Carthage, Missouri and provide solutions to owners and aquatic designers looking for great water play based products and services. We manufacture our own water slides and offer a wide variety of water toys and other aquatic products from select suppliers (all products are proudly made in the USA). Safety and superior customer service is what drives the company. Product designs are very flexible, which provides the ability to take proven ideas and integrate them perfectly into new designs very quickly. We work directly with the top pool builders in the country throughout the entire process to make sure every detail is covered. Our goal is to help create Fun Moments built on quality family time that provide lasting memories. The Suppliers and manufacturing companies we represent, offer exceptional service and share our devotion to the customer.

About Lemmie Jones:

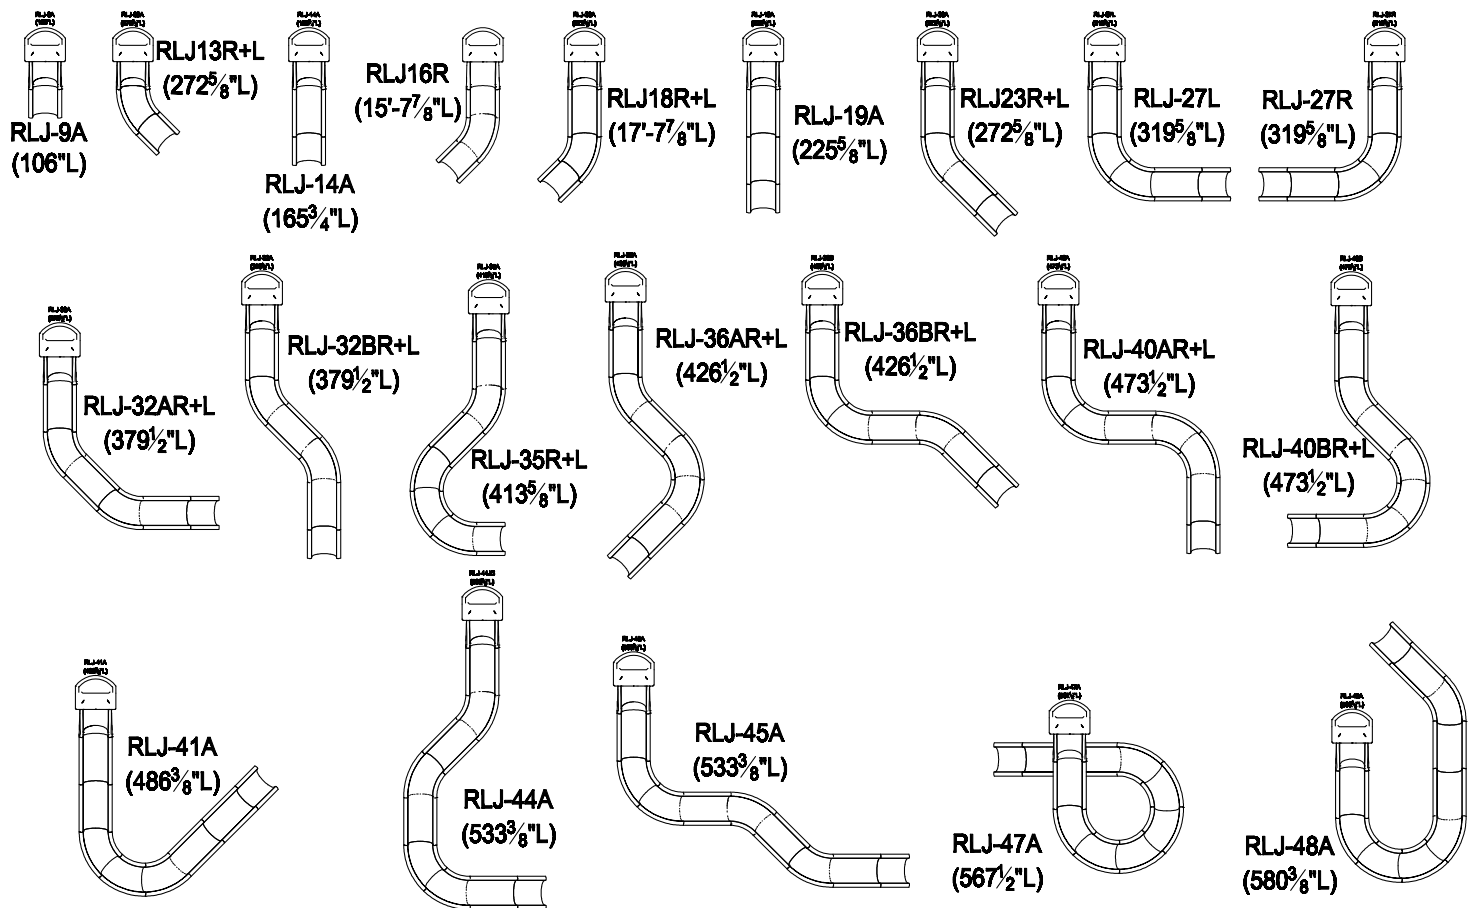

Lemmie Jones, Owner, brings over 12 years of aquatic experience to the table including water slide manufacturing, sales, purchasing, product sourcing, supply chain & project management. His aquatic career began in 2006 with Miracle Recreation as a Senior Buyer overseeing the purchasing function for four business units including the water slide division. In 2009, Miracle closed down their water slide division which created a void in the industry for a new supplier. For the next six years, he was the director of sales for a new start-up company which resulted in sales doubling annually. At the end of 2015, Lemmie branched out to pursue his own interests and dreams by creating Recreation by Lemmie Jones, LLC. As a result, he maintained his original vision of working with like-minded vendors and created a sales network to offer exceptional aquatic products and customer service across the USA.

"I can provide you with superior water slides, custom designed to your specifications. I personally participated in constructing the CNC molds which produce my water slides. I want you and your family to thoroughly enjoy the products that I offer, and I'm dedicated to exceeding your expectations."

-Lemmie Jones

WATER SLIDES

Proudly made in the USA, Our Residential Water Slides deliver the 'BIG WOW' that will take your backyard paradise to the next level. Nothing says Summer Fun better than the laughs and giggles of children (of all ages) riding one of our water slides and Splashing down into the pool! Super durable and low maintenance, our Fiberglass slides match the higher demands of the Commercial Industry Standards. No other Residential Water Slide Manufacturer includes Full Installation as one of their standard services. Mounting Brackets are made from 316 Stainless-Steel which exceeds all industry standards. We offer standard designs or can customize a design to meet your specific site plan. Concrete Pier or Deck Mount options available. The slides can be built right into your landscaping or stand alone on a custom-built deck with stairs. We offer a variety of standard colors and we can work with you to find the right custom color to match your project perfectly.

GROUND FX

Our Water Play Division has over 20 years in the Entertainment and Water Park Industry. Taking raw materials and turning them into something everyone can enjoy was, and still is, the ultimate reward for our efforts. They have a passion for what they do, and they approach every project like it's going to be the best one ever! The excitement and enthusiasm they put into their work is refreshing and infectious. We've selected the perfect combination of products that will add value and Fun to your backyard oasis. Your backyard will be the standout in the neighborhood. Our features are fabricated using 304/304L Stainless Steel and then sand blasted and powder coated which provides a durable, long-lasting product that delivers endless entertainment and fun for the kid in all of us.
