# MUNICIPAL SLIDES

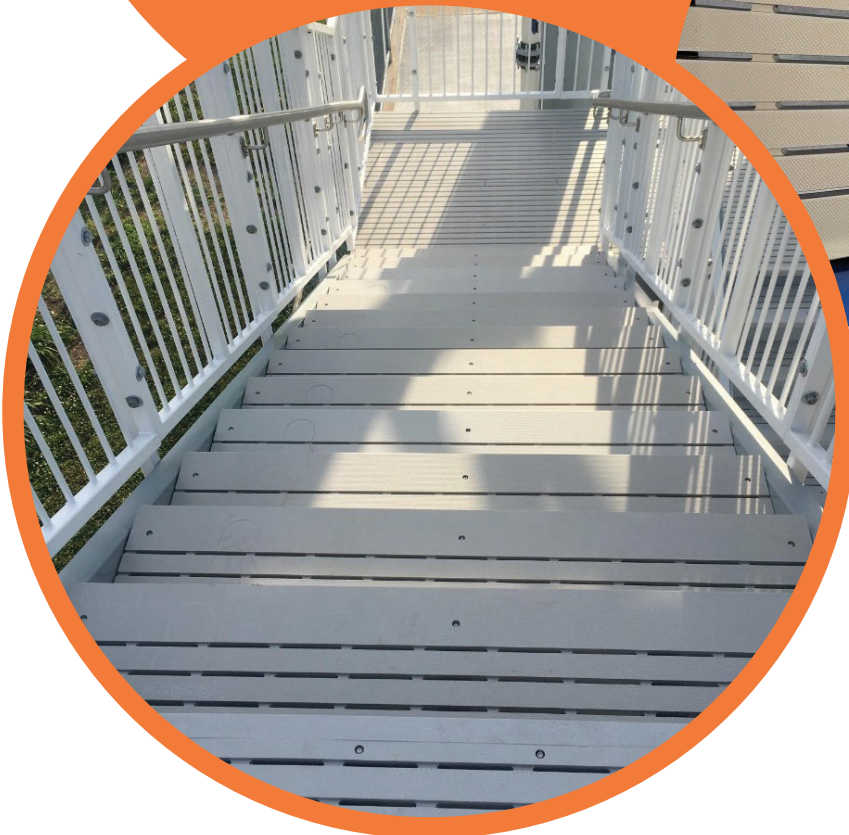

# ABOUT US

Established in 2015, we are a municipal water slide manufacturer offering a variety of slide options, water features, and proprietary aquatic products. Recstep is a proprietary decking material which carries a 10-year warranty against color fade. Our 3-meter dive tower, Safedive, offers a much safer dive tower alternative with a full-sized stair design equipped with several safety features. Working directly with aquatic designers, pool contractors, and individuals, we can offer one-of-a-kind custom and standard options. By aligning with other manufacturers in the aquatic industry, we can offer various products to the customer. Whether you have a new construction project, adding custom theming, retro-fitting an existing pool, or simply replacing your old spray structure, we strive for excellent and efficient customer service. Our goal is to deliver aquatic fun in a multitude of styles.
